What Your Regulators Now Know about the Future of Banking & Technology

When regulators need expert, forward-thinking knowledge about the fusion of banking and technology, they call Tom Vartanian. And in this exclusive appearance, Tom will tell you what he tells them.

Thomas P. Vartanian,
Professor of Law and Founder and Executive Director, Financial Regulation & Technology Institute,
George Mason University
Author of the forthcoming book
200 Years of American Financial Panics: Crashes, Recessions, Depressions, and the Technology that Will Change It All

Make History...and Get Noticed!

History in Real Time is NYBA's first-ever virtual speaker series. NYBA has designed this series to tackle head-on the topics financial industry leaders and future leaders are most concerned about today. Politics, economics, racial equity in the workplace and in our communities, the future of CRA, the future of M&A...it's all here. In five sessions over the next five months. One day at a time— it's History in Real Time.

Take advantage of these Sponsorship Opportunities to highlight your firm's partnership with the banking industry leaders across New York State.

Make History in Real Time with NYBA!
